- **Languages**
  - French : Native
  - English : C.2
  - Dutch : B.2
  - Spanish : A.2

About

I have been passionate about programming for three years now, I love bringing my projects to life using code. Always looking for new challenges, I enrolled in school 19 where I learned to learn quickly, to work in a team and to be autonomous. I am now again looking for new challenges to continue to evolve in an environment that will allow me to put my skills into practice.

Training

English Courses
2014-2015

Education First Miami
Gap year in Miami after high school to learn English.

Solo learning
2018-20xx

At Home
I developed strong programming skills at home using online platforms such as Udemy, OpenClassroom or even Youtube. I practice a lot by creating personal projects and via freelances projects as well.

- HTML5 | CSS3 | JS6
- React.js
- MySQL
- WordPress

IT Engineer
2019-2021

19 Coding School (42 Network)
In addition to learning programming languages that I had never used before, 19 taught me to learn quickly and effectively on my own and within a team.

- C
- C++
- ASM
- Git
